Disability Inclusion

What is Disability Inclusion?

Including people with disabilities in everyday activities and encouraging them to have roles similar to their peers who do not have a disability is *disability inclusion*. This involves more than simply encouraging people; it requires making sure that adequate policies and practices are in effect in a community or organization.

Inclusion should lead to increased participation in socially expected life roles and activities—such as being a student, worker, friend, community member, patient, spouse, partner, or parent.

Socially expected activities may also include engaging in social activities, using public resources such as transportation and libraries, moving about within communities, receiving adequate health care, having relationships, and enjoying other day-to-day activities.

Disability Inclusion: Making sure everybody has the same opportunities to participate in every aspect of life to the best of their abilities and desires.

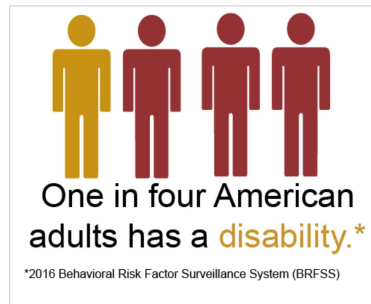

Disability Inclusion and the Health of People with Disabilities

Disability inclusion allows for people with disabilities to take advantage of the benefits of the same health promotion and prevention activities experienced by people who do not have a disability. Examples of these activities include:

- Education and counselling programs that promote physical activity, improve nutrition or reduce the use of tobacco, alcohol or drugs; and
- Blood pressure and cholesterol assessment during annual health exams, and screening for illnesses such as cancer, diabetes, and heart disease.

Including people with disabilities in these activities begins with identifying and eliminating barriers to their participation.

Why is This Important?

I have not felt SAFE for over 5 years -- perpetually in CRISIS that a community does not care about the conditions of life that is REAL that I EXPERIENCE REAL and somehow what has been RESEARCHED on the NATIONAL INSTITUTES of HEALTH [<http://nih.gov>] on the subject of GANGSTALKING can not SPARK into a SPOKEN AIR or WRITTEN WORD email or messenger chat, to confer into a conversation.

Taking A Reach Upward To Lead To Doctor Todd Grande, I am not at odds with his work in total. But there is new evidence that must be brought into perspective. There is a certain dark casting at the intense efforts to hold a mass ignorance onto the subject that I am particularly affected by. But what is unacceptable [ROADBLOCK TO COMMUNICATION] has an agenda to hold a deception that must be broken. I define the issues that surround my life path as a WICKED PROBLEM for reasons that are unsolvable.

So I am sharing this matter as I have --- it is a matter of pretense -- the ones who have DOCTOR DEGREES can not be challenged from their authority. The authority to claim one thing, when such one thing is not true. In mental health, the pointer to "Violent" or "Threat" is way overused to shut someone up -- and that is the conflict I am in.

My First Appointment With InlandPsych With "CareTeam"

I identified her inclination. This was when I was pointing Out Something That She Was Not Accepting. She Placed A Barrier In My Communication.

The information I was sharing, was a hard copy printout of a National Institutes Of Health Related Research Findings on Gangstalking.

The Filename Relates Doctor, but she is not a Doctor.
She is a Nurse Practitioner.
She shut down and would not continue the normalization of conversation.
She was then sensitive to my efforts to rebalance it. Witnessed by my mother, she accused me of being threatening. My mother agreed that I never was in a behavior of threatening. Not first impressions, she attempted to withhold PREFACE to then establish IGNORANCE.
The session failed from that point forward.

I am expecting the same conditions for a real doctor.
Any attempt to "break the ice" it met with extreme choices of unprofessionalism on their part. [Documented for 15+ years]
The wicked problem I mention.

Best Practices: Communicating Your Science

This article details some key strategies you can use to de-jargon and clarify your content so scientists and non-scientists alike can get excited about your news.

The Pacific island nation of Papua New Guinea has less than 10 million inhabitants and more than 850 known languages. In many ways, it's a real-world example of what takes place in the deep labs of science: Outsiders or non-scientists certainly don't speak or understand the languages and even within the field, scientists can struggle to communicate between themselves. When you're working at the level of recombinant memetics (<https://mailtrack.io/trace/link/2f57782e88cf4fa01bfb5821f4ce6e11cfc1d706?w=aW5mb0BjcmIzaXN0ZXh0bGluZS5vcmc=&url=https%3A%2F%2Fio9.gizmodo.com%2F11-emerging-scientific-fields-that-everyone-should-know-5987296&userId=4662961&signature=b46336092f838609>) or the skin microbiome of a deep sea fish, it's hard to find common ground. But it's oh-so important.

In this article, we share tips for communicating science to non-scientists – and scientists alike. It's about translating and de-jargoning the language, so the key concepts and findings can rise to the top.

Mastering these skills is invaluable for everything from science marketing, to presenting at conferences, to explaining – once and for all – what exactly you do at your next family Christmas. Get ready to learn, Uncle Steve...

=====[The Failure To Communicate Is In You All - Not Me]=====

You are not trustworthy!

You all have an intrinsic need to not communicate with me, pre-cognitively!

My Needs Are To Rebuild Trust - ABSOLUTE!

Adding Here:

"It arises out of mass society theories and crowd psychology theories which developed in the 19th century, and which reflected a fear of the masses," he said. "The claim was that people in the mass lose their sense of identity and their ability to reason, they regress to an inferior mental state where they are manipulable by unscrupulous leaders.

"It has been totally discredited by contemporary work on groups and crowds."

Van Bavel, who said he found the idea of mass formation psychosis "reductionist", highlighted a different account of the role of psychology, groups and leadership in the rise of Naziism (here <https://mailtrack.io/trace/link/1ac2f5546c104b7b0d274d0148e3385abcbea8aa?w=aW5mb0BjcmIzaXN0ZXh0bGluZS5vcmc=&url=https%3A%2F%2Fbpspsychub.onlinelibrary.wiley.com%2Fdoi%2Ffull%2F10.1348%2F014466605X48998&userId=4662961&signature=b507006662f7eb54>)).

Seriously, what kind of platform do you follow to deny my rights against the law you are already showing to be following in my attempts to form understanding by dialogue?

That is AGAINST THE LAW AND AGAINST COMMON DECENCY!

YES,

I NEED SUPPORT TO GET MY ACTUAL MENTAL HEALTH
IN COMPLIANCE WITH THE LAW!

It is NOT ME that is ASKING TOO MUCH!

IT IS DEFINITELY NOT A FAULT I AM RESPONSIBLE FOR!

I HAVE TRIED EVERY SINGLE POSSIBLE WAY TO OPEN THIS

DAMN DOOR OF INCLUSIVE REQUIREMENTS -- IT SEEM THEY

THINK IT IS OPTIONAL – IT IS NOT – THIS INTERFACE IS UNDER A

DEMAND THAT IS INDECLINABLE! YOU CAN NOT DECLINE

YOU CAN NOT REMAIN THERE OPPOSITE OF ME!

YOU CAN NOT REMAIN THERE OPPOSING ME!

YOU CAN NOT REMAIN THERE DISOBEYING THE LAW!

YOU CAN NOT REMAIN THERE INVERTED FROM ME!

YOU CAN NOT REMAIN THERE AS AN ADVERSARY AGAINST ME!

YOU CAN NOT REMAIN THERE IN SECRECY!

YOU CAN NOT REMAIN THERE DISHONESTLY

YOU CAN NOT REMAIN THERE UNCHANGED FROM YOUR DUTY AND YOUR OATH TO "DO NO HARM" WHEN HARM IS BEING SHOWN TO YOU!

YOU CAN NOT REMAIN THERE IN SILENCE!

YOU CAN NOT REMAIN THERE WITHOUT RESPONSE OF RESPONSIBILITY!

YOU CAN NOT REMAIN THERE 150 MONTHS PASSING BY THE CHANGE OF OUR GLOBAL WAYS OF THINKING TO ENABLE RIGHTS FOR PERSONS WITH DISABILITIES AND FOR YOU TO NOT KNOW EXACTLY WHAT YOU ARE TRYING TO GET AWAY WITH. I DO NOT CARE IF YOU CALL ON THE AUTHORITIES WHO MAY BELIEVE YOU OVER ME -- I WILL DIE FIRST BEFORE I ALLOW YOU TO CONTINUE HURTING AND HURTING AND INJURING YOUR PATIENTS IN THIS MODEL THAT YOU OBVIOUSLY HAVE SOME KIND OF PROBLEM DOING THE RIGHT, MORALLY RIGHT ACTIONS HERE!

HAVE I MADE MYSELF CRYSTAL BALL EMOJI CLEAR?

YOU ARE HEADING WITH FOOLISH ALLEGIANCE TO SOME DIRECTIVE TO NOT BE OF THE SOUND MIND PERSPECTIVE!

THIS IS LEADING TO A COURT BATTLE --- WHERE NO ONE WINS !

YOU ARE ABSOLUTELY INSANE!

🔮 The image of a round crystal ball is an emoji used as reference to the future and the ability to foresee it. Crystal Ball Emoji is generally used jokingly when someone means to say that they can guess something correctly because they know what will happen. It's like saying "I can see it in my magical crystal ball!"

YES, I CAN SEE THE FUTURE IN ALL OF THIS?
CAN YOU?
